10 OPERATIONAL PERMITS

All Operational Permits listed in the International Fire Code Section 105.6 are included with the Fire Benefit Charge.

Explanatory notes:

- 1.The VRFA establishes its review and inspection fees on a percentage of the permit fee assessed by the authority having jurisdiction. Using a percentage of the jurisdictional fee as the basis of VRFA fees eliminates the need to adjust the VRFA fee schedule every time a jurisdictional fee changes.
- 2. The fee only applies to single family occupancies that require fire protection systems.
- 3. Hourly rate is based on the direct costs of VRFA staff time, salary, benefits, overhead, administrative costs, and resources.
- 4. Includes plan review and first two inspections.
- 5. Preventable nuisance and malfunction false alarms exist to reduce unwarranted calls that remove emergency apparatus from service. Though there is no penalty for 1st and 2nd violations, it provides the opportunity for the VRFA to educate owners about any mechanical problems within a system that may not be the fault of occupancy tenants. It further grants the opportunity for repair technicians to correct any deficiencies that may exist. Subsequent false alarms incur a penalty in an attempt to encourage needed repairs of the associated systems.
- 6. The VRFA Fire Marshal is authorized to reduce any fees for permits. In compelling cases where the applicant the party responsible for payment of such fees is an organization exempt from taxation under 26 USC 501(c)(3), and where the permit relates directly to the provision of charitable services to residences of the VRFA service area, the VRFA Fire Marshal is vested with discretion to reduce any fees for permits, publications, and actions by up to 50%.
- 7. Permits that are not completed and no project improvements are made can, in writing, ask for the inspection fees to be refunded.
- 8. The VRFA will attempt to accommodate a client's requests for inspections outside of normal working hours. If there is not an inspector available, the request may be denied. If a client requests such inspection and the inspection cannot be completed for any of the reasons outlined above, the Department shall retain the minimum inspection fee and is authorized to deny any future requests. A 24 hour notice for cancellations is required for refund of fees.
- 9. After hour inspection fees are charged when an inspection is performed outside of normal work hours at the client's request.
- 10. Fees in accordance to RCW 70.77.555
- 11. If an inspection for a fireworks display/firework sales permit is scheduled outside of normal VRFA hours for the Fire Marshal's Office, it will be billed at a two hour minimum in accordance with line 5.5 in this fee schedule.
